

Morska Pianka 100ml AK-8036

The perfect product for recreating any white foam in water effects from the bow wake of any vessel, to waves, ripples, and waterfalls. Creating any moving effect is easy with this clear 1-part, low odour water based resin product that holds its shape, even on a vertical surface. This is a high quality acrylic product developed for extreme realism. Close well to preserve for longer. Use a spatula or an old brush for handling.
